

Recovery & Remarketing

Peritus partners with the leader in nationwide collateral recovery services such as national repossession management solutions, (LPR) license plate recognition staging, skiptracing, and remarketing services.

This gives us the ability to provide services to auto lenders across the U.S. - decreasing losses by industry leading recovery rates along with a host of services utilizing the most state-of-the-art technology to bring back lost collateral faster.

Services Overview

National repossession management

We successfully manage the complete process of collateral repossession nationwide with our industry leading network of repossession agents through sophisticated processes, compliance and technology platforms.

License plate recognition

Nationwide license plate recognition solutions for real time live repossessions anytime, anywhere whether in early or late stage delinquency. We know where your collateral has been, do you?

Skiptracing

Nationwide, professional skip-tracing services to manage the process of locating and repossessing the hard to find collateral with leading edge technology, processes, customer service and solutions in a completely compliant environment.

Specialty recovery

Specialty repossession management include national recovery services for bankruptcy, non-self help repossession states, impound and marine/recreational repossessions. Allow a highly trained specialized team to handle assignments in these segmented areas to keep you in compliance.

Remarketing

Full service liquidation services nationwide to include transport, reconditioning, title and all traditional remarketing services managed by a team of industry professionals and providers.
